PROJECTS

NewsApp |HTML+CSS, JS, ReactJs, API endpoints, Bootstrap

- Description: Developed a mobile app that aggregates real-time news articles from various sources.
- Technologies Used: React Native, APIs from news sources (e.g., BBC, CNN).
- GitHub : [nidhipriya-533/NewsMunk \(github.com\)](https://github.com/nidhipriya-533/NewsMunk)

Portfolio |HTML, CSS, JavaScript, GitHub

- It is fully responsive portfolio website.
- It is a website containing multiple sections and all the relevant hyperlinks.
- Portfolio Link : <https://nidhipriya.netlify.app>

Student Management System

- Project: Developed a student management system using **MySQL**.
- Features: Includes login, signup, registration forms
- Skills: Proficient in database management and web development.

Movie Recommender System Project

Built a personalized movie recommendation system using machine learning techniques. The system provides tailored movie suggestions based on user preferences.

- Technologies Used: Frontend and Backend

Developed a responsive web app using ReactJS, Utilized React Router DOM for navigation.

Deployed the backend using FastAPI.

- Data Source: Collected movie data from the OMDB API.
- Achievements: Successfully deployed the app on Hugging face.
- Project Link: [Movie Reccomender \(movierecommender-br0y.onrender.com\)](https://movie-recommender-br0y.onrender.com)

TECH SKILLS

Languages: C/C++, Java, JavaScript, HTML-CSS, Tailwind CSS

Libraries: ReactJs

Frameworks: ReactJs, ExpressJs

Databases: MongoDB, SQL, MySql

Relevant Coursework: Data Structure & Algorithms, Object Oriented Programming(OOP), Operating System, Software Engineering, DBMS

SOFT SKILLS

Team Work | Time Management | Quick Learner | Leadership Skills

HOBBIES

- Cooking
- Athlete
